BEGIN THIS FALL
DESCRIPTION

Students in the Associate in Arts degree program take classes in a small classroom environment. Their first two years of education at a technical college is the same as the first two years at a four-year university, yet costs much less! FDTC offers students in the program a variety of learning formats including accelerated, online, web enhanced, and hybrid courses that are transferable or lead to transferable courses to accommodate traditional and non-traditional students. Graduates of the program will have the necessary communication and analytical thinking skills to compete in a professional work environment or compete with university students entering their third year of a baccalaureate program.

The Leadership and Management component of this degree heightens employment opportunities and prepares the student for situational, decision making, and organizational roles in professional environments.

MISSION

To provide students with a strong foundation in general education, thereby preparing them to transfer to a four-year college or university in pursuit of a bachelor's degree, or enter the workplace with knowledge and skills necessary for professional career opportunities.

The Associate of Arts Program must contain a basic core of general education courses. The core must include at least one course from each of the following areas: Humanities/Fine Arts, Social/Behavioral Sciences, Natural Sciences/Mathematics, and Oral Communications.

GRADUATION REQUIREMENTS

- Minimum of 60.0 Credit Hours
- Fulfill all financial obligations to the College
- Achieve a cumulative final GPA of 2.0
- The Following Leadership and Management Courses:
  - Principles of Management
  - Management Decision-Making
  - Situational Supervision
  - Organizational Behavior
  - Leadership Fundamentals
