

Cycle:

CERTIFICATE IN APPLIED SCIENCE WITH A MAJOR IN EARLY CHILDHOOD DEVELOPMENT

Program Mission Statement:

The Early Childhood Development program supports the College’s mission and goals by offering a Diploma in Early Childhood Development. This program prepares the student with skills, knowledge, and competencies for employment and position advancement using the General Education Core Competencies of the College as a foundation.

Division: Health and Human Services

AVP: Dan Averette

Department Chair: Chris Thomas

Director: Karen Vido

SACSCOC Standard: 8.2A

Accrediting Agency: Yes No

Name:

Certification Exam(s): Yes No

Program Student Learning Outcome	Monitoring Year
Demonstrate an understanding of children’s development and learning to create environments that are healthy, respectful, supportive, and challenging for each child. (Reading Comprehension)	2018-2019
Design, implement, and evaluate experiences that promote positive development and learning for each and every young child in different academic disciplines. (Oral Communication)	2019-2020
Identify observation, documentation, and other forms of assessment as central to the practice of early childhood professionals. (Information Literacy)	2020-2021

STUDENT LEARNING OUTCOMES FOR CAS.ECD 2018-2019

A. Program Student Learning Outcomes	B. What courses are PSLOs Assessed	C. Methods for Outcomes Assessment	D. Expected Level of Program Performance	E. Data Collection	F. Results	G. Plan For Improvement
What should the graduates of your program be able to do?	Where do you see evidence that the student can do these things?	How does your program evaluate student/graduate skills/abilities?	What is the expected level of student performance <u>for the program</u> ?	When will you collect the data needed to evaluate the performance of the program?	What are the results of the evaluation? NOTE: include student ratio with all results.	How will you use this information to improve the program?
Reading Comprehension: Demonstrate an understanding of children's development and learning to create environments that are healthy, respectful, supportive, and challenging for each child.	ECD 101	Students will take the Unit 1 test based on lectures, in class assignments, and readings.	70% of students in the course will score 70% or higher.	Fall 2018 Spring 2019	In a sampling of three different face-to-face sections of the course, 28 out of 31 students (90%) scored 70% or higher. The lowest score on the assessment was 68%, and the highest score was 100%. The average score was 86%.	The expected level of learning was met. We will continue to emphasize key elements of children's development through hands-on in-class assignments.

STUDENT LEARNING OUTCOMES FOR CAS.ECD 2018-2019

A. Program Student Learning Outcomes	B. What courses are PSLOs Assessed	C. Methods for Outcomes Assessment	D. Expected Level of Program Performance	E. Data Collection	F. Results	G. Plan For Improvement
What should the graduates of your program be able to do?	Where do you see evidence that the student can do these things?	How does your program evaluate student/graduate skills/abilities?	What is the expected level of student performance <u>for the program</u> ?	When will you collect the data needed to evaluate the performance of the program?	What are the results of the evaluation? NOTE: include student ratio with all results.	How will you use this information to improve the program?
Reading Comprehension: Demonstrate an understanding of children's development and learning to create environments that are healthy, respectful, supportive, and challenging for each child.	ECD 135	Students will create a weekly (5 days) menu for young children based on an assigned calorie count as well as USDA and DSS guidelines.	70% of students in the course will score 70% or higher.	Fall 2018	In a sampling of two face-to-face sections of the course, 13 out of 20 students (65%) scored 70% or higher. The lowest score on the assessment was 40%, and the highest was 100%. The average score was 78%.	The expected level of learning was not met. The majority of the students who did not score 70% or higher were enrolled in the Certificate of Applied Science with a major in Early Childhood Development. There is currently not a minimum mathematics admission test score required as a program entrance requirement. Changing the program entrance requirement would insure students have the mathematical skills needed to successfully complete this assessment.

STUDENT LEARNING OUTCOMES FOR CAS.ECD 2018-2019

A. Program Student Learning Outcomes	B. What courses are PSLOs Assessed	C. Methods for Outcomes Assessment	D. Expected Level of Program Performance	E. Data Collection	F. Results	G. Plan For Improvement

NOTE: include student ratio with all results.	How will you use this information to improve the program?
Reading Comprehension: Demonstrate an understanding of children's development and learning to create environments that are healthy, respectful, supportive, and challenging for each child.	ECD 203	Students will complete four separate observations of young children and document how the observation reflects age-appropriate development and behavior.	70% of the students will receive 70% or higher.	Spring 2019	10 out of 13 (77%) scored 70% or higher. The lowest score was 25%, and the highest score was 100%. The average score was 83%.	The expected level of learning was met. We will continue to engage students in developmentally appropriate hands-on learning activities. Each student will be given the opportunity to submit his or her observations early. If a student chooses to do so, the instructor will provide feedback, and the student will be able to make any necessary changes before the due date.

STUDENT LEARNING OUTCOMES FOR CAS.ECD 2019-2020

A. Program Student Learning Outcomes	B. What courses are PSLOs Assessed	C. Methods for Outcomes Assessment	D. Expected Level of Program Performance	E. Data Collection	F. Results	G. Plan For Improvement

What is the expected level of student performance <u>for the program</u> ?	When will you collect the data needed to evaluate the performance of the program?	What are the results of the evaluation? NOTE: include student ratio with all results.	How will you use this information to improve the program
Oral Communication: Design, implement, and evaluate experiences that promote positive development and learning for each and every young child in different academic disciplines.	ECD 131	Students will create a language arts game which is developmentally appropriate for young children. Students will play each other's games.	70% of the students will receive 70% or higher.	Fall 2019	17 out of 18 (94%) scored 70% or higher. The lowest score was 33% and the highest score was 100%. The average score was 90%.	The expected level of learning was met. We will continue to engage students in developmentally appropriate hands-on learning activities. In addition, each student will be given the opportunity to submit his or her language arts game early. If a student chooses to do so, the instructor will provide feedback, and the student will be able to make any necessary changes before the due date.

NOTE: include student ratio with all results.	How will you use this information to improve the program
Information Literacy: Identify observation, documentation, and other forms of assessment as central to the practice of early childhood professionals.	ECD 102	Students will interview two parents of different ethnic or cultural backgrounds who have children between the ages of birth and 4 years concerning child rearing practices.	70% of the students will receive 70% or higher.	Fall 2020 Spring 2021 Spring 2021 (Dual Enrollment)	8 out of 10 (80%) scored a 70% or higher. The lowest score was 50%, and the highest score was 100%. The average score was 90%. 8 of the 11 (73%) scored a 70% or higher. The lowest score was 50% and the highest score was 100%. The average score was 86%. 3 of the 3 (100%) scored 100%.	The expected level of learning was met. We will continue to engage students in using various methods of documentation to gather developmentally appropriate information about children and families. Also, students will be given the opportunity to submit his or her interviews early. If a student chooses to do so, the instructor will provide feedback, and the student will be able to make any necessary changes before the due date.

STUDENT LEARNING OUTCOMES FOR CAS.ECD 2020-2021

A. Program Student Learning Outcomes	B. What courses are PSLOs Assessed	C. Methods for Outcomes Assessment	D. Expected Level of Program Performance	E. Data Collection	F. Results	G. Plan For Improvement

NOTE: include student ratio with all results.	How will you use this information to improve the program
Information Literacy: Identify observation, documentation, and other forms of assessment as central to the practice of early childhood professionals.	ECD 105	Students will develop a brochure and presentation to inform families of ways to utilize positive child guidance.	70% of the students will receive 70% or higher.	Fall 2020 Spring 2021	8 out of 9 (88%) scored a 70% or higher. The lowest score was 64%, and the highest score was 100%. The average score was 94%. 6 out of 7 (85%) scored a 70% or higher. The lowest score was 42% and the highest score was 100%. The average score was 85%.	The expected level of learning was met. We will continue to engage students in using various methods of documentation to gather developmentally appropriate information about children and families. In the next cycle, the benchmark is being increased to 75% of the students will receive 79% or higher.

STUDENT LEARNING OUTCOMES FOR CAS.ECD 2020-2021

A. Program Student Learning Outcomes	B. What courses are PSLOs Assessed	C. Methods for Outcomes Assessment	D. Expected Level of Program Performance	E. Data Collection	F. Results	G. Plan For Improvement
What should the graduates of your program be able to do?	Where do you see evidence that the student can do these things?	How does your program evaluate student/graduate skills/abilities?	What is the expected level of student performance <u>for the program</u> ?	When will you collect the data needed to evaluate the performance of the program?	What are the results of the evaluation? NOTE: include student ratio with all results.	How will you use this information to improve the program
Information Literacy: Identify observation, documentation, and other forms of assessment as central to the practice of early childhood professionals.	ECD 107	Students will locate a developmentally appropriate activity that parents of children with special needs can use to help their children continue to progress while at home during unexpected events such as the current COVID-19 pandemic.	70% of the students will receive 70% or higher.	Fall 2020 Spring 2021	4 out of 9 (44%) scored a 70% or higher. The lowest score was 20%, and the highest score was 100%. The average score was 69%. 7 out of 9 (78%) scored a 70% or higher. The lowest score was 20% and the highest score was 100%. The average score was 82%.	The expected level of learning was not met. We will continue to engage students in using various methods of documentation to gather developmentally appropriate information about children and families. In order to improve student performance, the instructor modified the number of activities that were due each week. The expected level of learning was met. We will continue to engage students in using various methods of documentation to gather developmentally appropriate information about children and families.

CONTINUOUS STUDENT IMPROVEMENT

This Cycle's Results and Comparison to Last Cycle's and Recommended Actions:

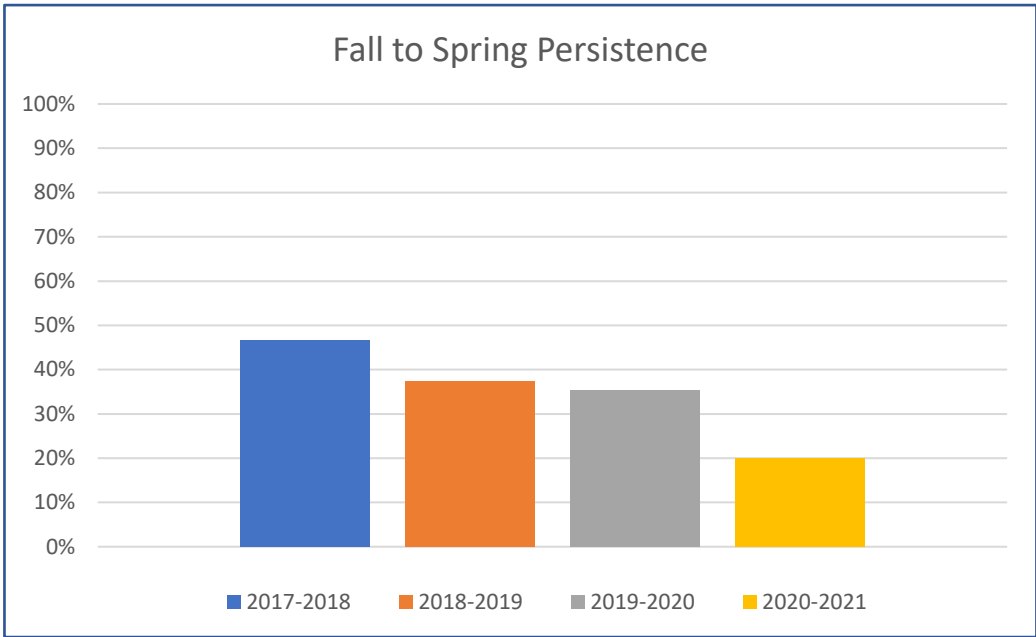

During the last cycle (2016-2018) the results of the evaluations for PSLO's were similar to the current cycle with students scoring 70% or higher. One significant difference in the current cycle was the evaluation for the ECD 135 assignment. The expected level of learning was not met. The majority of the students who did not score 70% or higher were enrolled in the Certificate of Applied Science with a major in Early Childhood Development. There is currently not a minimum mathematics admission test score required as a program entrance requirement. Changing the program entrance requirement would insure students have the mathematical skills needed to successfully complete this assessment.

Although students scored 70% or higher on evaluations in the last cycle, an issue was noted with writing proficiency. Since the last cycle, students have been required to submit assignments to the writing center for feedback and revisions before submitting for a grade. All student's research papers are automatically scanned by TurnItIn, which also allows students to review feedback, and make revisions as needed before submitting for a grade. Due to these changes, writing proficiency has improved since the last cycle.

Fall-to-Spring Persistence	47%	38%	35%	20%

There has been a decline in persistence. We lose many students in the program due to their current life circumstances.

We will continue to encourage students to pursue their education from one semester to the next.
