

Dental Assisting Program

Diploma in Applied Science with a major in Expanded Duty Dental Assisting

Program Description

The Expanded Duty Dental Assisting program is a Diploma program that is three semesters in length and is comprised of didactic, clinical, and laboratory courses offered at the Health Science Campus. In addition to on-site clinical experiences, dental assisting students will have the opportunity to gain meaningful experiences through off-site clinical rotations. Dental assisting students will be able to study and practice all expanded duties that they will be certified to perform, including assisting the dentist with restorative procedures, teaching oral hygiene instruction, taking impressions of teeth, polishing structures above the gum-line, taking radiographs (x-rays), placing preventive sealants to the pits and grooves of teeth, and monitoring of nitrous oxide.

Career Description

Dental Assistants perform a variety of duties including those related to patient care, as well as many office and laboratory responsibilities. During patient care they work chairside assisting dentists as they examine and treat patients. Dental Assistants must be reliable, have good manual dexterity, and be able to communicate and work effectively with patients and other members of the dental office staff. Dental Assistants are employed, almost exclusively, in private dental offices. Some employment opportunities are available in public and government facilities. Nationally, the starting salary for a Certified Dental Assistant is approximately \$42,850 plus available benefits. As the population grows and as dentist's workloads increase, there is an increasing need for more trained Dental Assistants.

Entry Requirements and Other Program Information

- High School Diploma or GED
- Completion of BIO 210, BIO 211, MAT 101, AHS 130
- Eligible to take ENG 101
- Medical Examination
- Minimum Cumulative GPA of 2.5
- CPR, background check, and drug screen
- Hepatitis B Immunization or Titer, MMR Immunization or Titer, Chicken Pox Vaccination or Titer, Two-Step PPD/Chest X-Ray

Dental Assisting Curriculum

			CLASS
PRE-REQS			
BIO 112	Basic Anatomy & Physiology		3
